

Initial Product Design

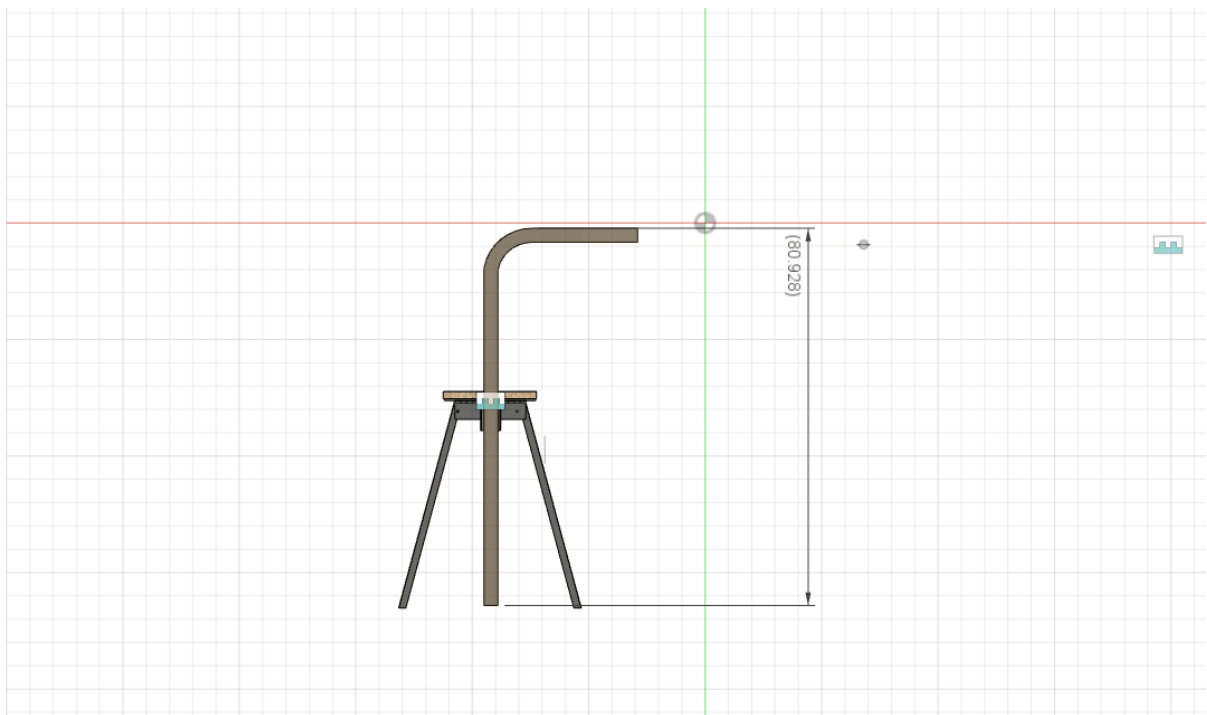

THIS CATALOGUE INCLUDES:

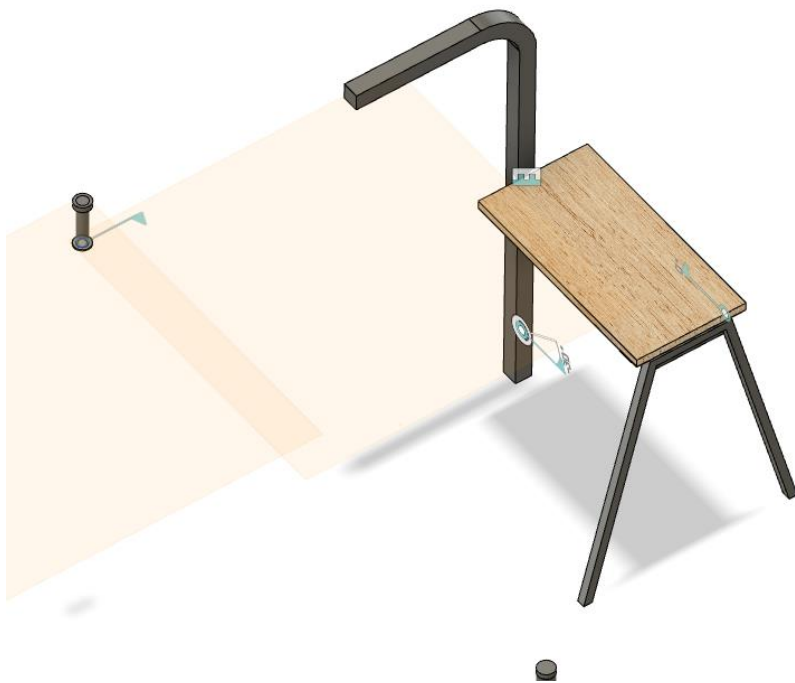

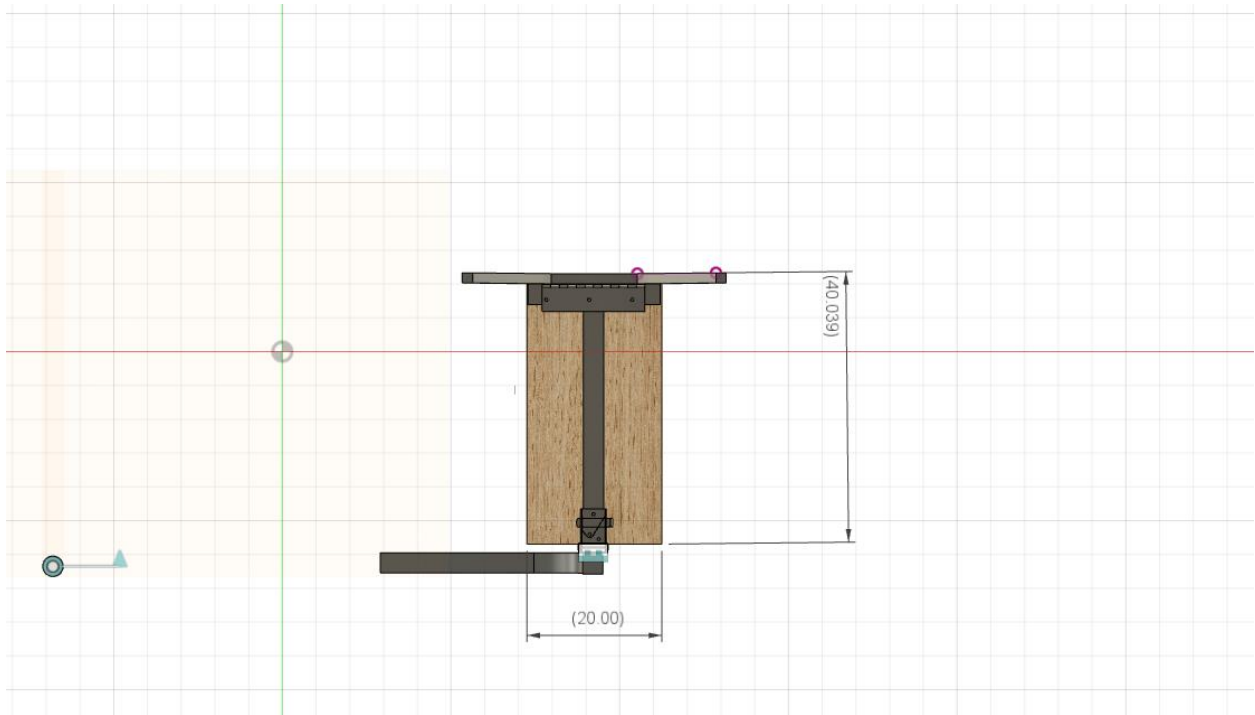

- Dimensions of the major components of the setup.
- Materials used to manufacture these components.

Chairs: Materials used – Stainless steel and oakwood

Chair overview

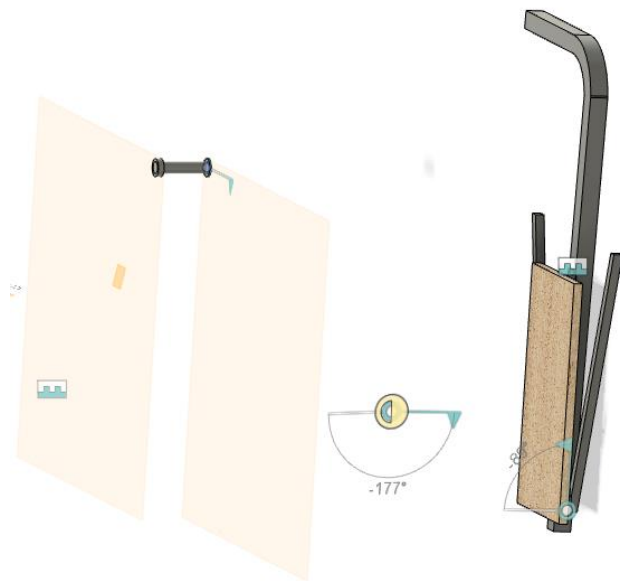

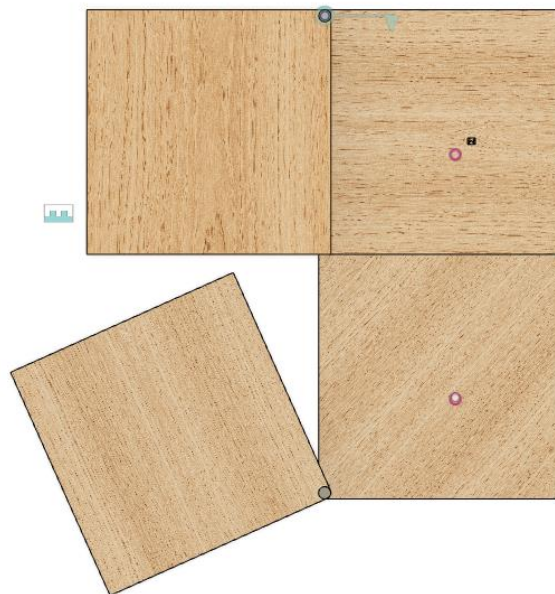

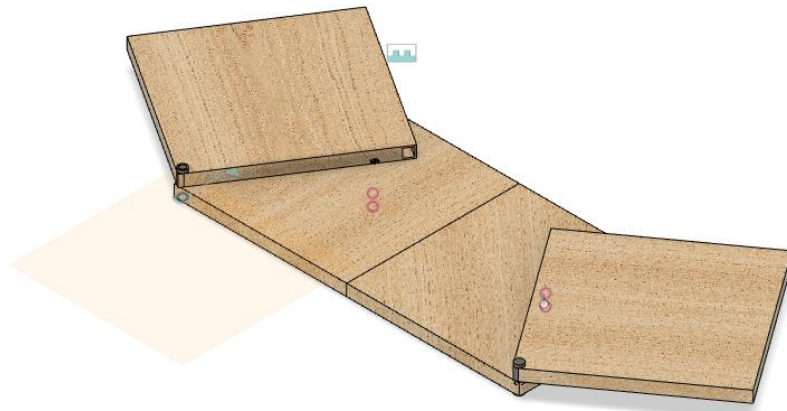

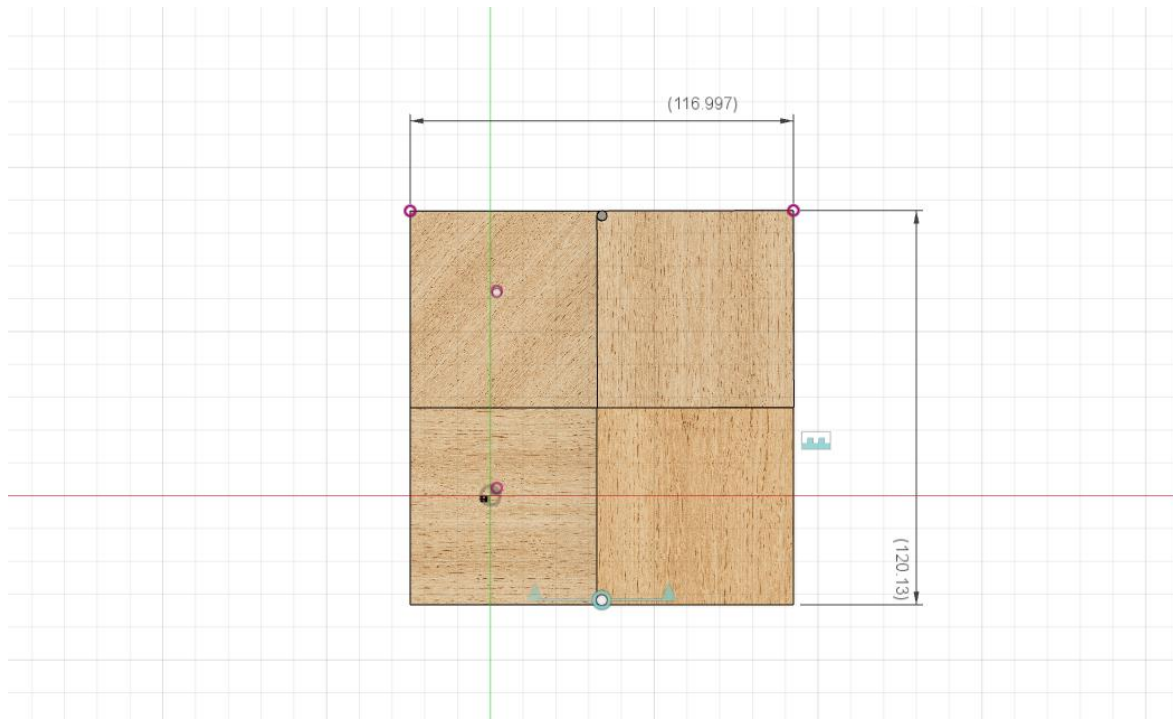

Table : Materials used - Oakwood

Note :- All dimensions provided are in centimeters.

Hinges used :- Piano Hinge (1feet) (in Table)

Modified folding table hinges (in chairs)

Both the components have been imported from McMaster-Carr catalogue.

Important functionalities:-

1. The chairs are not attached but can be dismantled from the table and attached back in the designated slots as per the design.

2. Two chairs are 4 cms longer than others to compensate the height difference created by the upper part (opened by rotatory action) of the table.
